

Dear Madam,

This is Narendra from Arcnet Broadband Services. I thought a note of gentle appreciation would keep WebBazaar team motivated.

It gives me immense pleasure to voice my appreciation to the entire team of Web Bazaar for professionally crafting our website www.arcnet.in. There are many layers of an organization that attributes to the overall success of that organization and yours is no different.

I would like to appreciate the Web Bazaar team for their enthusiasm, hard work and dedication applied in designing our website which really helped us to get noticed in this competitive market. My experience with Web Bazaar was unforgettable. I was very impressed with your professionalism, knowledge of the business and attention in detail.

Your team was very helpful during our conversation of figuring out what we wanted and needed for our website. I felt as though we were working with a family owned business and not some corporation hidden away in 'profit land' out to gauge us.

Finally I would like to commend the entire excellent team members Ms Archana, yashaswini, Anjum Wasim swathi Gopi and other good members for their relentless determination.

I am proud to have Web Bazaar as part of my team and look forward your future contribution.

yours sincerely

Narendra
